

We Have Moved

We are very proud and excited to have built a new manufacturing facility on a 116 acre site in Loveland, Colorado to meet growing demand in medical end markets for its Value Plastics brand of engineered, single-use plastic-molded fluid management components and to provide flexibility and capacity for continued long term growth.

The state-of-the-art, 115,000 square foot facility is located seven miles away from our previous Fort Collins facility and is self-contained from in-house product design through tooling, manufacturing, assembly and packaging. Customer support, sales and marketing resources support the world from this single facility.

If you have any questions about our location change or the Validation Master Plan, please contact your Nordson Medical account manager or customer service at (888) 404-5837.

Nordson MEDICAL

805 West 71st Street
Loveland, CO 80538
